# PROTECTING ENDANGERED SPECIES

by Neville Hui

# TABLE OF CONTENT

- 1 Meaning of Endangered Species
- 2 The Endangered Species
- 3 The Reason and the Action
- 4 Conclusion

# ENDANGERED SPECIES

A plant or animal is put in a  
serious **danger** that there are  
only **a few** alive.

# ENDANGERED SPECIES

1

MANATEE

2

GREY WOLVES

3

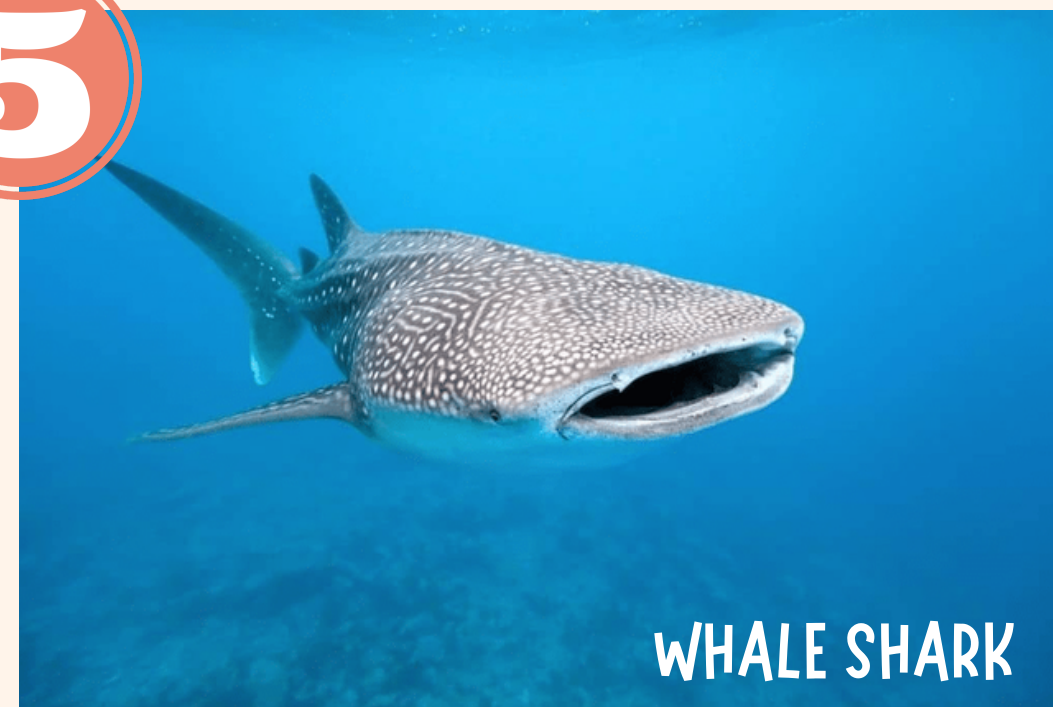

GIANT PANDA

4

AFRICAN PENGUIN

5

WHALE SHARK

# ENDANGERED SPECIES

6

POLAR BEAR

7

KOALA

8

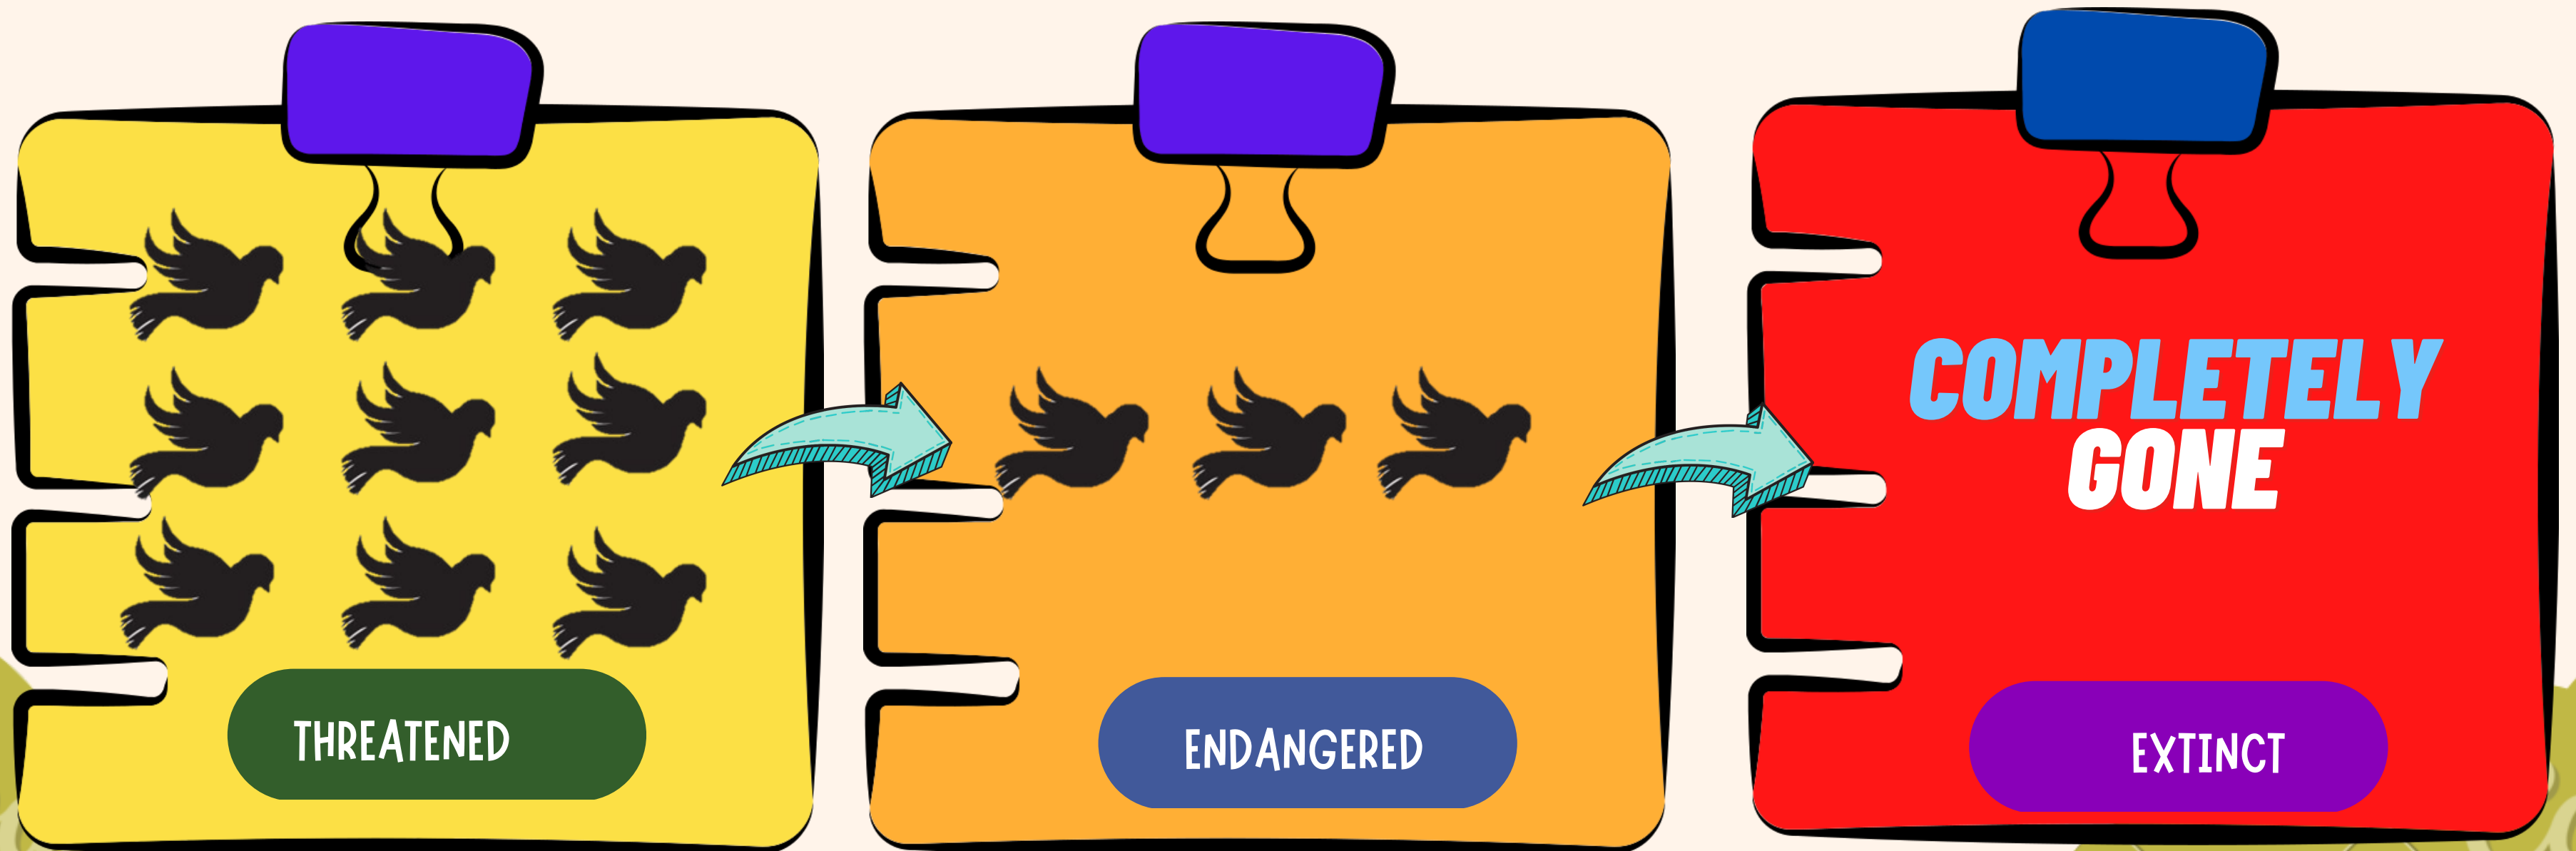

LOWER KEYS MARSH RABBIT

# THE REASON OF PROTECTING

Around 2000 species extinct, biologists foresee that in 2050, 90% of the rare species will extinct. The below shows

## The Road To Extinction

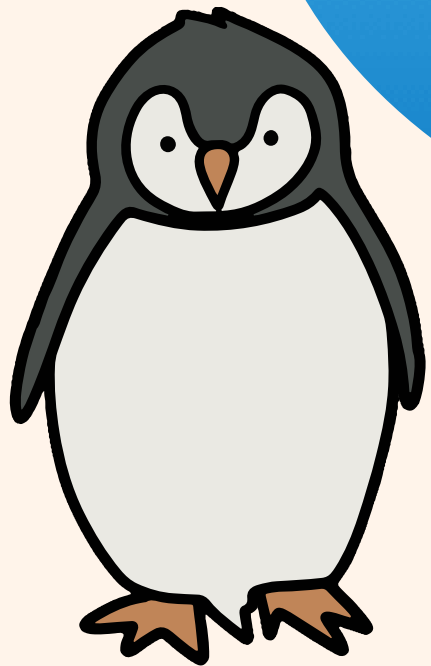

# ACTIONS TO SOLVE THE PROBLEM

1

YEAH!

WATER AND ENERGY

We can reduce using water and energy to preserve the environment and the animals' habitats

# ACTIONS TO SOLVE THE PROBLEM

2

Recycling and using recycled paper can help to protect the rainforests and the forest animals

YEAH!

RECYCLING PAPER

# ACTIONS TO SOLVE THE PROBLEM

3

RUBBISH IN THE SEA

Littering or throwing trash into the sea will harm the marine animals.  
We should stop littering.

YEAH!

# ACTIONS TO SOLVE THE PROBLEM

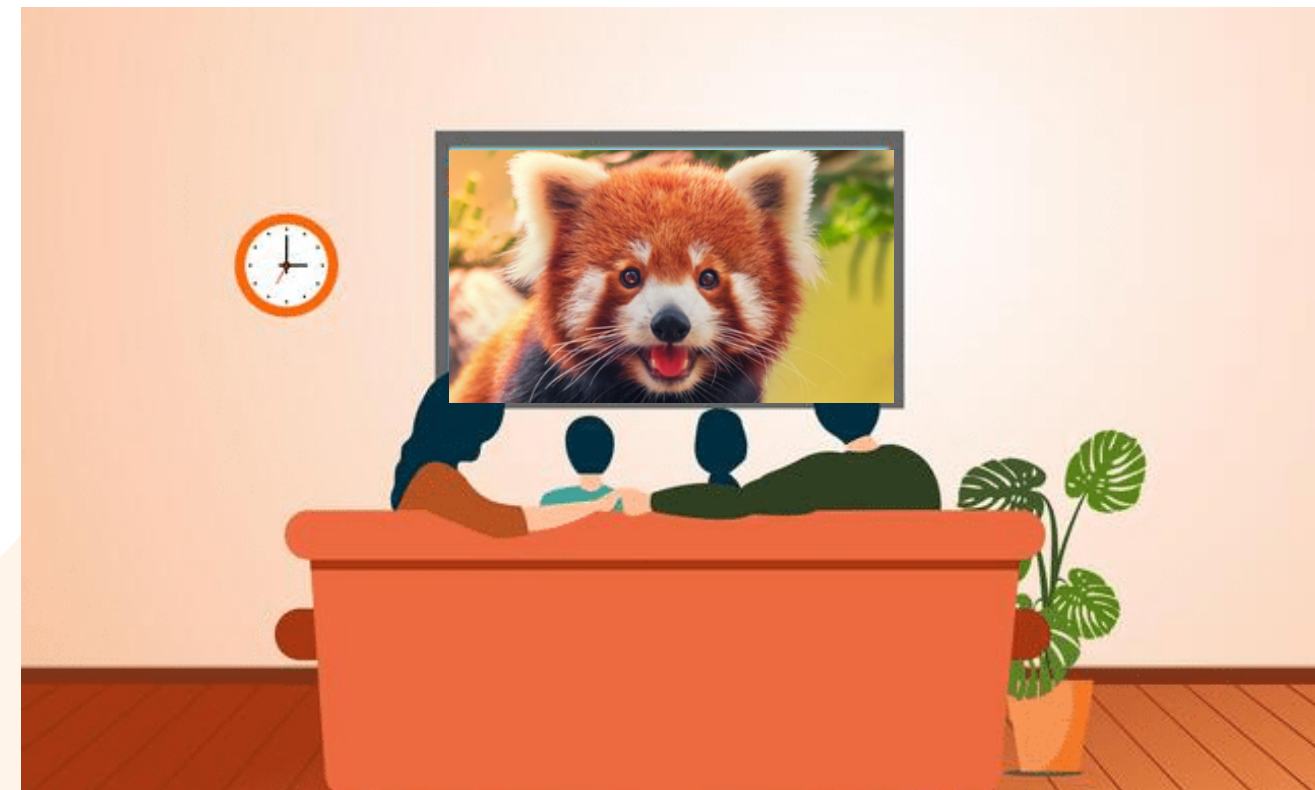

4

YEAH!

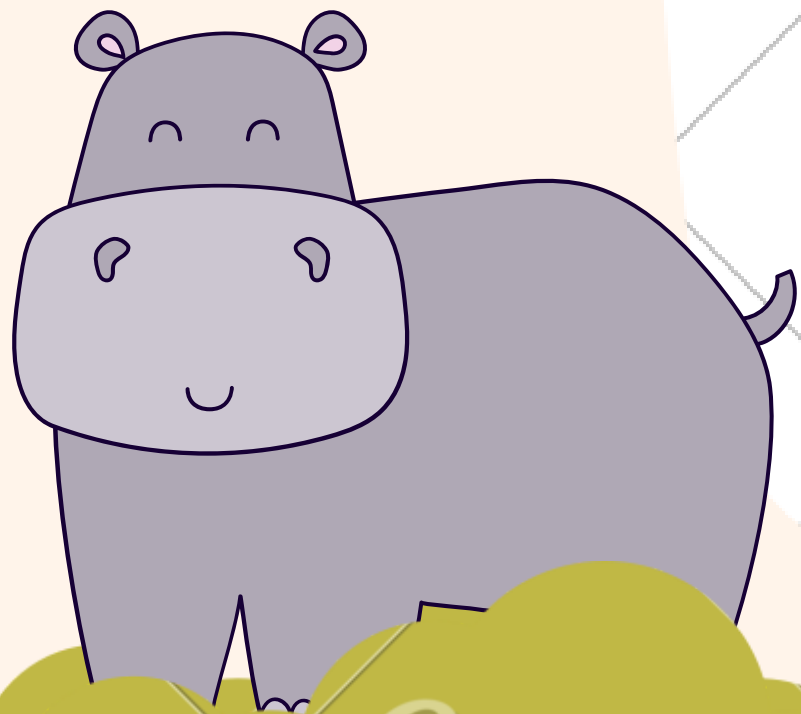

FOREST FIRE

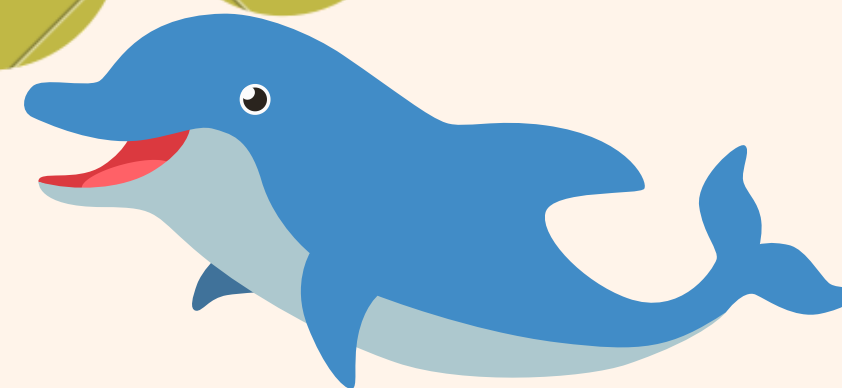

We should learn more about the habitats of the endangered species

# CONCLUSION

There are many endangered species that needed help today. We should try to preserve the environment and all the animals' habitats.

# THANK YOU
